

Vehicle Safety Branch Information Bulletin

Seat Belt Repairers

Organizations Accepted to Repair Seat Belts

The Vehicle Safety Branch permits certain organizations to carry out seat belt repairs. These organizations are listed below.

The minimum conditions that must be met by organizations carrying out seat belt repairs, and the requirements that are applicable in carrying out the work are stipulated in the Circular to Industry CI-109A, Seat Belt Repairers.

- Repairs are restricted to replacement of webbing only, without any repair or modification of mechanical components permitted.
- Seat belt assemblies must not be repaired if there is evidence or knowledge that the assembly has been subject to loading in a vehicle accident.
- Repair of seat belts may be carried out only by organizations that have been accepted by the Vehicle Safety Branch.

The Vehicle Safety Branch has accepted the following companies to carry out seat belt repairs (current June 2008):
